Murray GM was unable to supply a quote on the first truck (1&1/2 ton) Reg Cab and Chassis The quotes were discussed at length. It was noted that the prices of the Fords were much higher than the other two. The quotes from Murray GM included a huge fleet discount but they were unable to supply the first truck (1&1/2 ton) which Mayor Huskison stated that the Town needs to go with. Murray GM could not supply heated mirrors on the trucks which the Mayor said is unacceptable as well. Heated mirrors were one of the requirements in the tender specifications. Council members that were at the meeting felt that there was no need to wait for a decision to be made so the following motion was brought to the table:

It was duly moved and seconded that the Town of Lockeport accept the tenders from Roseway Chrysler for the following two new public works trucks:
